

## Net S9

**Continuously Operating Reference Station** 

- · Integrated professional OEM board
- · New design of aluminum alloy housing
- · IP68 industrial level standard
- · WIFI hotspot and Bluetooth connections
- · STH, RINEX raw data storage to FTP server
- · eMMC technology for internal memory

## Summary

SOUTH NET S9 has integrated professional OEM board, compatible with all constellations.

In addition, we greatly improve the operation experience and convenience for users with the additional function of WiFi hotspot and Bluetooth connections, thus, users are able to configure receiver with any mobile terminal. NET S9 is not only able to record STH file, but also support RINEX file storage.

10000mAh high capacity of battery builtin, can act as a primary power source or as an Uninterupted Power Supply (UPS) backup.

SOUTH NET S9 is using eMMC (Embeded Multi Media Card) technology for internal memory, faster and larger, stable and reliable. Moreover, NET S9 allows to connect to an external storage devices(maximum up to 1TB) via USB Host interface so that you don't have to worry about data storage.
